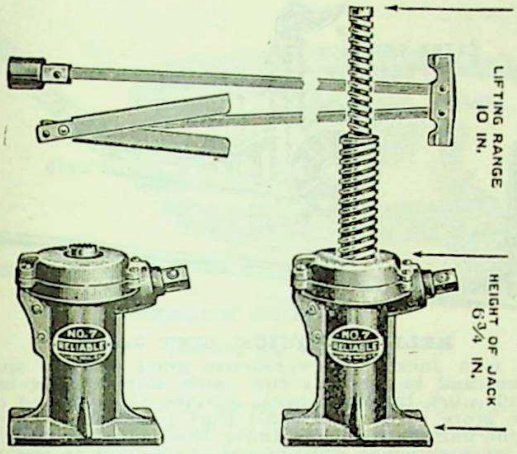
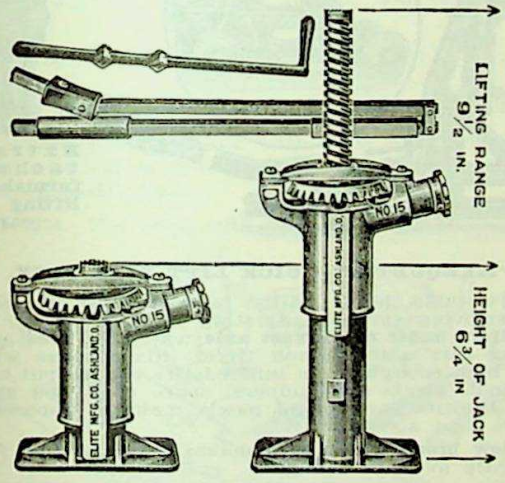
JACKS



BALLOON TIRE JACKS.
(For Heavy Passenger Cars.)

This jack embodies an entirely new principle in jack construction. Has two screws as shown that work together resulting in speed and ease of operation. Neither top nor center screw turns, avoiding the tendency of jack to twist from beneath load. Operates faster and easier than a ratchet jack. Has 36" folding handle which operates from center of jack. Raises from 6¾ inches to 17 inches. Weight 8 lbs. Capacity 4,000 lbs.

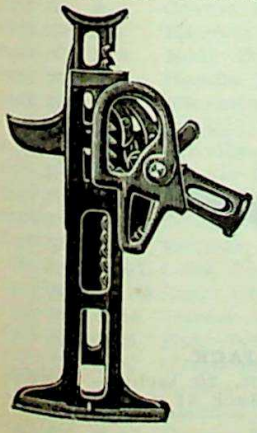
Stock No. Z7 Factory list price, each.....**$7.50**



BALLOON TIRE JACK.
(For Medium Weight Passenger Cars.)

This jack has the same features as the one illustrated above, but is a little lighter in construction. Raises from 6¾ inches to 17 inches. Weight 7½ lbs. Capacity 3,000 lbs.

Stock No. Z15 Factory list price, each.....**$5.00**

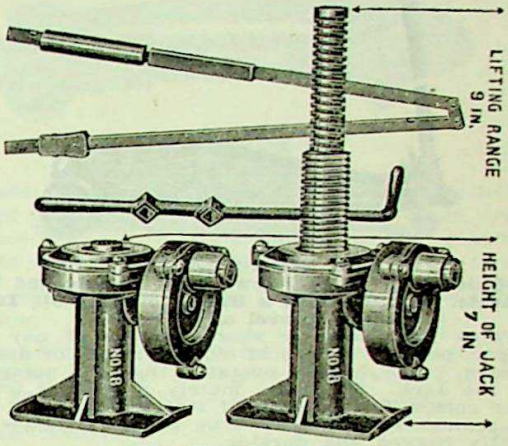


No. Z43

NO. 43 MALLEABLE RATCHET JACK.

Capacity, 1,500 lbs. Raise, 10 to 16½ inches. Step is 3 inches below top. Weight, 4½ lbs. Simple type, all malleable jack. Finished in bright red baked enamel. Full cases contain 50 jacks.

Stock No. Z43 Factory list price, each **$2.00**



DOUBLE LIFT JACK.
(For Busses with Low Overhanging Bodies.)

A distinctive jack for busses with low overhanging bodies, where it has to go under the axle with tire deflated.

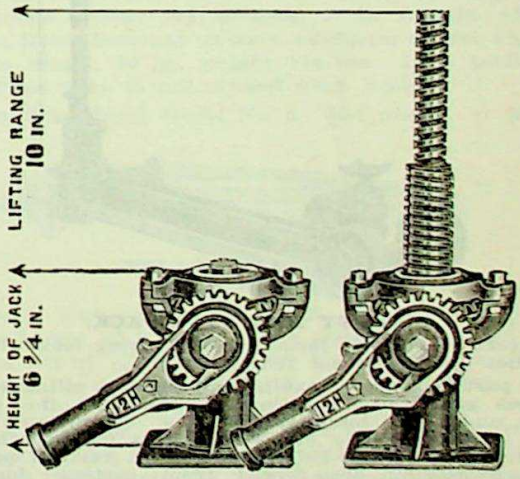
Jack is so built that operation can easily be made from behind the bus.

Has long folding handle, equipped with a semi-universal joint. This joint is flexible enough to give all advantages of a universal joint, but rigid enough to place jack in position. Both screws of jack work together, resulting in speed and ease of operation.

Raises from 7 inches to 16 inches.

Weight, 19 pounds. Capacity, 5 tons.

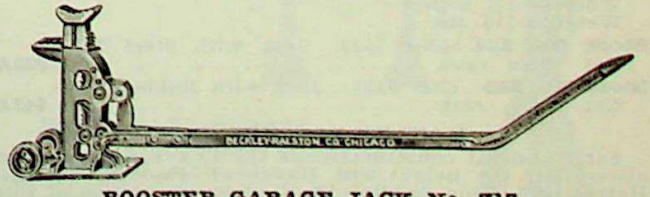
Stock No. Z118 Factory list price, each.....**$17.50**



DOUBLE LIFT JACK.
(For Heavy Trucks.)

A specially designed jack for heavy trucks with pneumatic tires. The 10-inch lift gives enough clearance for changing a tire. Any length handle can be inserted in socket of jack. This jack has the same working principles as the one illustrated above. Raises from 8 inches to 18 inches. Weight, 17 pounds. Capacity, 5 tons.

Stock No. Z12 Factory list price, each.....**$14.00**



BOOSTER GARAGE JACK No. Z17.

A real practical jack for garage. Stands flat on a large base. Wheels for rolling it under the car. Extra long handle with control lever and trip rod. Rack bar is heavy and has lower step.

Capacity 8,000 lbs. Weighs 25 lbs.

Stock No. Z17 Net price, each.....**$7.50**

JACKS

No. Z35

No. 35. LIGHT TRUCK SCREW JACK.

Capacity, 3 tons. Raise, 10¼ to 16 inches. Weight, 8½ lbs. For the Ford and other light trucks. Easy and sure mechanism. Has 1-inch cut screw and large base.

Stock No. Z35 List price, each.....$3.75

No. 38. TRUCK SCREW JACK.

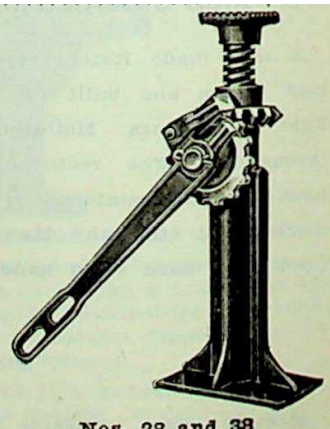
Capacity, 5 tons. Raise, 11 to 16 inches. Weight, 12 lbs. Has 1¼-inch cold rolled screw.

Stock No. Z38 List price, each.....$4.75

No. Z28. BALL BEARING TRUCK JACK.

Capacity, 10 tons. Raise, 11½ to 16¾ inches. Weight, 19 lbs. Load is carried on ball bearings. Has 1½-inch cold rolled screw. Will lift any truck made, fully loaded. Guaranteed to give complete satisfaction. Has 24-inch pipe handle.

Stock No. Z28 List price, each.....$11.00



Nos. 28 and 38

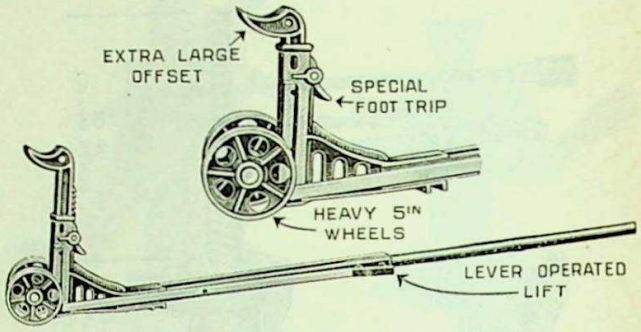
GARAGE JACKS



RELIABLE QUICK LIFT JACK.

Here is a Jack that represents good quality and construction, and is all that the name implies. It is ideal for quick work in the garage, service station and around the tire store. To operate all that is necessary to do is to set the Jack in position under the axle, give one shove on the lever which is conveniently arranged at the side of the handle and bring the heavy rack bar in contact with the axle, then press down on the handle and the car is raised. To release the Jack simply press on the handle and touch the toe to the release dog or foot trip. Height of Jack—12 inches. Height of raise—5 inches. Length 5½ ft. Capacity—1 ton. Weight—30 lbs.

Stock No. Z77 Net price, each.....$7.00
